

What Would Happen to a Camel Who Smoked?

Decision Making Steps

1. *Identify the problem*
2. *List the information you need to solve the problem*
3. *Evaluate the information (weighing the pros and cons) then make a decision that's best for you.*
4. *Plan to implement your decision. (How do you stick to your decision?)*

Situation: Some of your friends are wearing t-shirts and hats with cigarette logos on them. Just the other day one of the guys brought out a pack of cigarettes from the same brand as the logo on his shirt. It was the first time you had ever seen him smoke. Ever since then, he's been offering you cigarettes, too. What should you do?

Identify the problem:

List the information you need to solve the problem:

Evaluate the information (weighing the pros and cons) then make a decision that's best for you:

Plan to implement your decision. (How do you stick to your decision?)
